

Dear Parents,

Welcome to the 2018-2019 school year! Seventh grade is an exciting time as children embark upon new adventures in the world of learning. This is also a year of important transitions as the work students do will directly pave the path to high school. This is a year in which the acquisition of new skills is accelerated. Therefore, students will be challenged by great literature and informational texts while they work independently as well as collaboratively in partnerships and groups. The instruction will be centered on pushing students to think critically, making connections from the text to themselves and the world around them. Students will then put these critical thinking skills to use on paper, navigating their way through the writing process. Below you will find the ELA supply list for this school year. These supplies will ensure that students are prepared and ready to engage in class discussions and activities. I hope to make your child's learning experience a fun and exciting one, and I hope to instill a love of learning that will last throughout your child's years of schooling and adulthood.

Sincerely,  
Mrs. Barnes
