

Dear Families,

Welcome from the Fifth Grade Team!

This fall will prove to be very exciting with students growing, maturing, and gaining independence. Students will enjoy the curriculum of science, math, social studies, word study, reading, and writing. Our math curriculum is reflective of the common core expectations. Reading and writing will follow the Teachers College Workshop (Lucy Calkins) units of study. Lastly, science and social studies will follow the New York State standards of learning.

We are looking forward to teaching your student and working along with you to educate the whole child. We would greatly appreciate your support in keeping your student reading, writing, and practicing math skills this summer. Please refer to the supply list sent home with your student and have everything labeled for the first day so we don't waste a minute! Enjoy the summer and see you this fall.
