

After School Enrichment Program

7th & 8th grade

Overview:

Sixth, seventh and eighth grade students in need of extra help in all subject areas will have an opportunity to stay after school everyday from 3:45-4:45. Students will have an opportunity to work on their homework assignments and any work they may owe to their teachers during this time. Teachers must leave any homework the students may have, so the tutors can ensure the completion of the assignment.

The program will run in 5-week cycles, with 3 students to 1 tutor ratio. If for any reason a student is not getting his/her work done, please contact Mr. Lynch to remove them from the program. We can then add someone that wants/needs to be there.

7th and 8th Grade Schedule:
